A lot of people supply microwave components if you're able to wait.

Microlab keeps 10,000 in stock.

You don't have to wait weeks for the microwave components you need. And you don't have to shop several suppliers. At Microlab/FXR we keep the widest possible inventory of precision components in stock at all times. Most orders are shipped the same day we receive them. Send for our new catalog.

MICROLAB/FXR, the supermarket of microwave components
